

STAR OF ONE, LIVING COLOR SEMINAR WITH

Cathy Morton

Cathy Morton is a Reiki master, human potential coach and empowerment healer. She believes deeply in the power of love, prayer and miracles. She holds a powerful frequency of healing and loving space for her gatherings and one on one sessions. She teaches you to uplift your own frequency, helping you to maintain a centered equilibrium. Her motto is to heal through joy and play verses struggle and pain.

Cathy will guide you into connecting with your living, chakra light-body while the reverberation of grandmother buffalo drum and a golden crystal singing bowl support your journey inward.

Join us for a special evening of a three hour guided seminar that will expand your connection to self, to earth, to each other, and to the creator of all.

Through meditation, breath work, and guided visualization you will have a physical experience of your divinity and universal connection.

If you feel drawn to the deep connection of oneness come and explore!

For more information about Cathy Morton, visit:
